## Tabor Musicians

### BANDSMEN SCORE

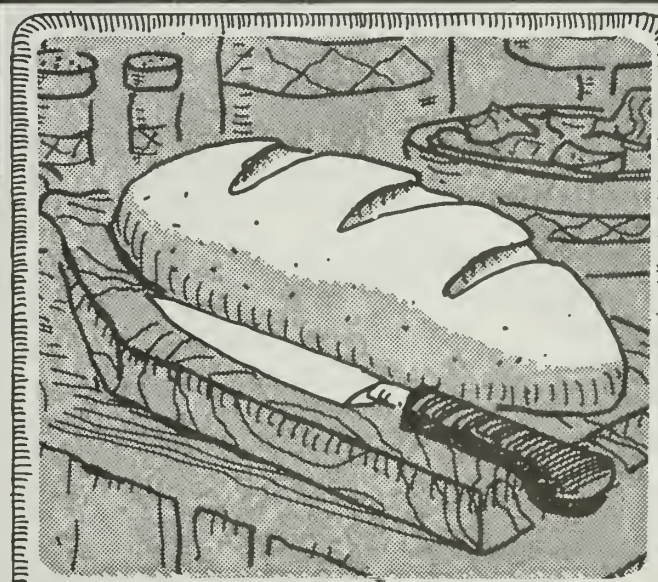

Four Tabor musicians will represent the academy at the Annual Southeast District Band Festivals. Playing in the Senior Division will be Christopher Mish (trumpet) of East Bridgewater, a Tabor junior. In the Junior Division there will be David Barr (trumpet) of North Dartmouth, William Howell (trumpet) of Mashpee and John Ferry (trombone) of Wareham. All four boys are regular members of the Tabor Concert Band and the 'Studio 8' Stage Band.

District Festival auditions were held all over Massachusetts earlier this year and the best qualified musicians were chosen to represent their schools in the various regional Band Festivals--a prelude to the All-State Band Festival to be held later this year.

The Senior Division Band Festival was held on Saturday, January 14, at 4:30 P.M. in the Stoughton High School Auditorium. The Junior Division Festival will be held on March 11th at the Silver Lake Regional High School in Pembroke.

Tabor musicians will also compete at the

University of New Hampshire Jazz Festival as the Studio B Stage Band travels to Durham for that event on February 25th.

## Little League Basketball

Little League Basketball, sponsored by the Mattapoissett Sports & Athletic Committee, started its season Thursday, January 5.

The opening game was Reds vs Blues. Mike Vulgaris and Steve Baggary gave the Blues a strong lead in a game they won 33-10.

The second game of the evening was Orange vs. Green. Tim Quinlan opened the game with 2 baskets and went on to score 10 points. With only a few seconds left the Greens' John Chase scored the final basket, but Orange was victorious 30-20.

The third game of the evening started off close and low in score for White vs. Purple. It was Dana Didricksen with a couple of baskets in the third that gave Purple a 12-4 edge and Steve Vaitses scored the only basket in the final quarter giving White 6 points to the Purples' winning 12.

Monday, the 9th, in a close, tense game Purple beat Orange 16-15, after an Orange basket by Tim Quinlan made after time had been called.

The second game Monday saw Green leading the Blacks 7-4 at the half and 7-6 at the end of the third, but a nice comeback for the Blacks

with a spectacular long shot by Drew Frazee gave them a 16-9 victory.

The final game of the evening was an exciting one with Red vs. Gold. The Golds had the lead but were tied up 8-8 at the half. Three baskets by the Golds' Dave Hubbard in the third and a fine long shot by "Putt" LaPlante gave the Golds an 18-12 edge. Scott Litchfield could do no wrong and scored 10 points for the Reds. For the Golds Hubbard 10 and LaPlante 8. The Golds won 22-18.

Thursday, the 12th, saw "Putt" LaPlante score 15 of the Golds' 23 points to beat the Greens 23-12.

In the second game there was a lot of action to be seen in Black vs. Blue. Black kept a slight edge throughout the whole game and won 24-22. Highest scorers were Sean McCabe 9 and John Coucci 8.

In the final game Orange had a 16-2 lead of the Whites at the first quarter. White started a comeback but didn't make it, and Orange took the game 28-21.

## Mattapoisett Seniors

The Mattapoisett Senior Citizens' Club will hold its next meeting on Monday, January 23, at 2:00 P.M. in the Legion Hall. This is the only meeting in January.

Following the business meeting, members will enjoy a colored slide visit to Guatemala with Marshall Ross, a Mattapoisett resident, who spent several weeks last fall serving as a consultant to a rubber manufacturing company in Guatemala. This was one phase of a program for retired specialists who volunteer their services to work in many countries of the world. Mr. Ross was able to travel extensively while on his assignment and has brought back many

fine pictures of the country.

Refreshments will be served.

## Council on Aging

As we promised last week, here are the details on the theater trip by Minibus (February 1st), and the big bus trip to the Museum of Science (February 9th).

The TRINITY SQUARE REPERTORY COMPANY has been praised and reviewed by the New York Times, the Boston Herald-American, and the Christian Science Monitor. In fact the production that we are to see (Vanities) was just reviewed last week in the Boston Herald-American by Boston's top theater critic, Elliot Norton. We believe that many Seniors will enjoy this professional stock company, and so we have reserved fourteen tickets (the capacity of the Minibus) for the 2 o'clock matinee on Wednesday, February 1st. The Minibus will leave American Legion Post 280, Depot Street at 12:30 P.M. First preference will be given to any Senior who did not make the Boston trip to see Mary Martin at the Colonial Theater. In making your reservation we ask that you pay for your ticket (specially priced) as soon as possible, as we have had to buy the tickets well in advance.

We have added another truck to our fleet expressly for the Marion, Wareham & Rochester area residents. We have had such an increase in calls that we have decided to install a direct, toll-free "Hot Line" for these customers. We have our plumber, Chet, who is a local resident and knows the area well. He will have a well-stocked supply of plumbing needs right at hand.

Are you disappointed to find yourself waiting two days for a plumber, then have him arrive with a helper to carry the tool box, and receive a bill for two men? We pride ourselves on sending one man on service calls.

We take good care of our old customers; it's new customers we're looking for.

citing the date and place of birth each time one comes to the hospital for outpatient services. A small, blue, charge-account type card will enable each admission to be processed in slightly over one minute!

Last summer, Mr. Gildo R. Cubellis, R.T., Tobey's director of inpatient and outpatient admissions, implemented the new system to accelerate the admission procedure. Now, whenever a patient comes to the hospital for outpatient services (these include emergency, radiology, nuclear medicine, laboratory, rehabilitation therapy, EKG, and respiratory therapy) a card with all pertinent information is made up and given to the patient. The patient is advised to have ready access to his card at all times and present it each time at the hospital for nearly automatic admission. Patient information will be reviewed on an annual basis.

Since this summer almost 5000 cards have been issued. Mrs. Beverly Houghton, supervisor, notes that between 25 and 30 patients now present their blue cards for admission each day, an indication of the success of the system.

### NOVA

What was behind America's frantic struggle to beat Russia to the moon? And now that it's over, what lies beyond the space race?

NOVA, the award-winning documentary science series on PBS, marks the 20th anniversary of America's first venture into space with a two-part special on January 25 and February 1. The two 60-minute programs produced by WGBH Boston vividly chronicle the race to the moon and examine the new goals of today's space explorers.

"One Small Step" (Wednesday January 25, at 8 P.M. on Channel 2) traces the space race from 1957 when Russia took an early lead by launching Sputnik and challenged America's claim to technological leadership of the world. In 1961 this challenge was met by President Kennedy with a bold commitment to land an American on the moon and return him safely to earth by 1970.

34 PRESTO PRESS January 18, 1978

The race was won for the United States in 1969 when astronaut Neil Armstrong took his historic step on the moon: "one small step for man, one giant leap for mankind."

The first international handshakes in space in July, 1975 officially ended the space race. This symbolic gesture--the high point literally and figuratively of detente--opened the way for both Russia and America to look beyond the moon and to set new goals for space exploration--the subject of the second of the two-part NOVA special.

"The Final Frontier" (February 1, 8 P.M., Channel 2) examines the hottest thing in futurism today--space colonization. According to Gerard O'Neill, theoretical physicist and professor at Princeton University, space offers some intriguing solutions to the problems of our own overcrowded planet. He foresees using the untapped resources of space, like asteroids or moon rocks, to build space colonies. These self-sufficient environments could utilize the power of the

ever-present sun for industry and farm-

And he predicts that by 2177 there will  
be more people living in space than on  
earth! Artists' conceptions of space  
habitats may look like Disneyland, but  
the technology needed to build these  
floating cities in space is no longer in  
the realm of fantasy. Clearly the race  
to the moon was just the first step in  
the ultimate adventure of settling the
